

STEERING COMMITTEE'S INTRODUCTION TO THE PROGRAMME 2020

1. Session: Recent developments in treatment of cough

Chairman: *Nina Skavlan Godtfredsen and Charlotte Suppli Ulrik*

Cough is the most common respiratory symptom, yet we are far from understanding the full pathophysiological mechanisms behind chronic cough – let alone how to treat this troublesome condition. However new treatments are emerging for especially “cough hypersensitivity syndrome”. This session will provide insights into management of chronic cough from diagnostic work-up to current and future treatment modalities.

2. Session: Palliation, death criteria and ethics

Chairman: *Finn Vejlø Rasmussen and Nina Skavlan Godtfredsen*

In the first part of this session Dr. Ross Taylor will share her views and experiences on holistic approach to living and dying with severe COPD.

She will touch upon subjects such as the difficult role of relatives as caregivers. Inappropriate use of medications that are not stopped when focus is changed from probable life sustaining to “end of life” palliation can be a major issue. And perhaps share an idea of a cheap, effective intervention without side effects.

I anden del af sessionen skal vi høre om og diskutere emnet, som har fået en særdeles høj aktualitet i relation til Covid-19 pandemien, men som vi tidligere i hverdagen ikke har forholdt os realistisk til:

Tænk at livet koster livet. Sommetider tydeligvis alt for tidligt i et livsforløb. Oftest sent som den uafvendelige konsekvens af at have levet.

Fra Dansk Center for Organdonation skal vi høre om etiske og juridiske problemstillinger i relation til ændringer i dødskriterierne.

David Bugge, som vi kender fra tidligere, vil med afsæt i begrebet ‘sygdom til døden’ berøre emner som fortvivelse og håb hos patienter, der f.eks. er lungesyge

3. Session: Obesity and lung disease

Chairman: *Charlotte Suppli Ulrik and Thomas Ringbæk*

Obesity is associated with an increase in overall morbidity and mortality, but what is the impact of obesity on asthma and COPD?

This session will provide and update on lung mechanics in obesity and the clinical implications of obesity in the management of patients with asthma and COPD.

4. Session: Interstitial lung diseases in Connective tissue disorder - the way forward

Chairman: *Elisabeth Bendstrup and Finn Vejlø Rasmussen*

It is well known that connective tissue diseases such as scleroderma and rheumatoid arthritis can result in lung problems. Infections, drug-induced pneumonitis, bronchiectasis, and COPD are common while interstitial lung disease is rare but often the leading cause of death. Evidence based, approved treatment has been missing but new studies show that antifibrotic drugs can slow down disease progression. In this session we will have an update on the newest data of CTD-ILD including new treatment options.

Steering Committee 2020

Charlotte Suppli Ulrik
Prof., overlæge, dr.med.
Hvidovre Hospital

Elisabeth Bendstrup
Overlæge, ph.d.
Århus Universitetshospital

Finn Vejlø Rasmussen
Overlæge, dr.med.
Nordsjællands Hospital

Thomas Ringbæk
Overlæge, klinisk lektor, dr. med.
Hvidovre Hospital

Nina Skavlan Godtfredsen
Overlæge, klinisk lektor, ph.d.
Hvidovre Hospital

Vi gør opmærksom på, at Boehringer Ingelheim Danmark A/S har anmeldt arrangementet til ENLI (Etisk Nævn for Lægemiddelindustrien). Arrangementet er, efter vores opfattelse, i overensstemmelse med reglerne på området, selvom arrangementet ikke på forhånd er godkendt af ENLI.

PROGRAM 2020

Friday 30 October

13.00 - 13.45	Registration and lunch
13.45 - 14.00	Welcome by Boehringer Ingelheim
	1. SESSION: Recent developments in treatment of cough Chairmen: Nina Skavlan Godtfredsen and Charlotte Suppli Ulrik
14.00 - 14.45	Emerging treatments in cough <i>v/Prof Jacky Smith MB ChB PhD FRCP, Manchester Clinical Research Facility</i>
14.45 - 15.30	Guidelines for management of chronic cough <i>v/Professor Alyn Morice, MD FRCP and FBPhS, Hull York Medical School, University of Hull</i>
15.30 - 16.00	Discussion
16.00 - 16.30	Coffee break, check in
	2. SESSION: Palliation, death criteria and ethics Chairmen: Finn Vejlø Rasmussen, Nina Skavlan Godtfredsen
16.30 - 17.00	A holistic approach to living and dying with severe COPD <i>v/Dr Ros Taylor MBE Senior Palliative Physician Medical Director Michael Sobell Hospice, previously Royal Brompton Hospital London</i>
17.00 - 17.30	Etiske og juridiske problemstillinger i relation til organdonation i DK efter ændringer i dødskriterierne <i>v/Helle Haubro Andersen/Christina Rosenlund, Dansk Center for organdonation</i>
17.30 - 18.00	Overvejelser og betragtninger omkring døden som baggrund for læge-patient relationen <i>v/David Bugge, lektor, PhD, Institut for kultur og samfund, Århus Universitet</i>
18.00 - 18.15	Discussion
19.00 - 19.30	Drinks
19.30	Dinner at Hotel Bella Sky

Saturday 31 October

	3. SESSION: Obesity and lung disease Chairmen: Charlotte Suppli Ulrik, Thomas Ringbæk
09.00 - 09.45	Obesity and lung function <i>v/Prof. Jann Mortensen, Overlæge, dr. Med, Rigshospitalet</i>
09.45 - 10.30	Obesity and asthma - Underlying mechanisms and clinical implications <i>v/Zuzana Diamant, Professor, MD PhD, Lund University Hospital, Lund, Sweden; Thomayer University Hospital, Prague, CR</i>
10.30 - 11.00	Discussion
11.00 - 11.30	Coffee break, check out
	4. SESSION: Interstitial lung diseases in Connective tissue disorder - the way forward Chairmen: Elisabeth Bendstrup, Finn Vejlø Rasmussen
11.30 - 12.00	Interstitial lung disease in scleroderma - what's new? <i>v/Anna-Maria Hoffmann-Vold, MD PhD, Head of SSc research at Oslo University Hospital</i>
12.00 - 12.30	Rheumatoid arthritis - lung manifestations - an update <i>v/Dr Nazia Chaudhuri. Clinical lead of ILD Unit, Manchester</i>
12.30 - 12.45	Discussion
12.45 - 13.00	Closing remarks

Program til Lungeforum 2020 her til orientering. Invitationen med information om tilmelding er sendt til ledelsen.
